

Online Training & In-Person Events

Abundant online and in-person education opportunities are available to members throughout the year. These opportunities include:

- Live Webinars – Presented by our experts on a variety of topics, ranging from investment portfolio tactics, economic analysis, credit union strategies, cybersecurity and more – many of which are free for members. View our training and event calendar to see what’s slated for the coming weeks.
- Recorded Webinars – Not able to attend a webinar during its scheduled time? No worries! Webinar recordings are made available within 2-3 business days of the live session so you can watch them back when your schedule allows. A list of available webinar recordings is included below.
- In-Person Events – Traditionally, Alloya is proud to host, sponsor and participate in dozens of in-person events throughout the year. However, due to COVID-19, Alloya will not be hosting or attending any in-person events through June 2021.
