

Subordinated Debt

Alloya proudly offers a full-service solution for credit unions who are looking to issue or invest in subordinated debt to strengthen their balance sheet and net worth while providing the flexibility to grow and attain strategic goals. This full-service product includes a simple “all-in” fee structure that can save both time and money compared to other providers.

Through strategic partnerships with McQueen Financial Advisors, LLC and Luse Gorman, PC, credit unions can leverage the strength of each party to receive regulatory approval, manage legal risks and lower costs versus working with investment banks or multiple individual providers that traditionally service credit unions looking to issue or invest in subordinated debt.

Meet Your Needs

Whether you’re looking to bulk up your balance sheet by investing, or build capital through issuance, Alloya’s program will help you achieve your current and future strategic goals.

Save Time & Money

Alloya’s full-service program offers an “all-in” fee structure that will save you time and money compared to other providers.

Enhance Effectiveness

Alloya’s program is built around partnership. With the support of McQueen Financial Advisors and Luse Gorman, your credit union can hand over the hard parts to a team of experts.
