

What is changing within Premier View?

- The look and feel of Premier View – home screen layout and color scheme
- Navigation – icons associated with navigation/products and new shortcuts
- Discover Premier View tiles – easy access to learn more about Alloya’s products and services
- The Help Center – new search feature where you can search for documents, guides, manuals and forms
- Some product/service names – to align with the standardized naming convention
 - Accounts → Cash Management
 - Item Processing → Check Clearing and Deposit

What is NOT changing within Premier View?

- Functionality – all transactions flow the same
- Login information (login ID, password, tokens)
- No change for scan-only users
- User authority on each transaction type has not changed
- Dashboards function the same
- Approvals are done the same (enhanced by home screen)
- Single sign-on to other systems
