

## COVID-19 Health & Safety Plan

### Before You Come

- If you are vaccinated against COVID-19, we encourage you to travel with your vaccination card should travel-related safety protocols change with limited notice.
- Do not travel to or attend the Credit Union Executive Leadership Symposium if you have tested positive (or been exposed to someone who has tested positive) for the COVID-19 virus within 14 days of the event.
- Do not travel to or attend this event if you are ill or not feeling well.
- Contact [events@alloyacorp.org](mailto:events@alloyacorp.org) if you need to cancel your registration due to COVID-19 related illness, symptoms or exposure.

### What to Expect at the Event

- Masks are currently required for all individuals while in indoor public settings, regardless of COVID-19 vaccination status. Complimentary face masks are available at various locations throughout the Venetian-Palazzo Resort. This mitigation effort follows the recommendations from the Centers for Disease Control and Prevention (CDC) and the State of Nevada requirements. Please note there is no outdoor space near the meeting rooms.
- To quicken the event check-in process and minimize contact with others, a Symposium Welcome Kit will be delivered to your hotel room shortly after your arrival. *(Please refrain from placing the "Do Not Disturb" door tag on the exterior of your overnight room so the hotel staff are permitted to deliver your Welcome Kit.)* Unless you have a question or require assistance, there is no obligation to visit Alloya's Help Desk (located outside the Lando Ballroom on Level 4).
- Handouts and vendor information will be made available in the Symposium Event App to minimize the handling of materials.
- Informational signage will encourage and remind attendees about best practices – including wearing a mask.
- Hundreds of individual sanitization stations are placed throughout the resort, which include hand sanitizer or sanitizing wipes.
- Cleaning protocols for overnight rooms, public spaces and back-of-the-house areas have been adjusted by the Venetian-Palazzo Resort to meet or exceed all current guidelines.
- Air conditioning systems have been improved to circulate up to 100 percent outside fresh air to reduce the amount of air that is recirculated. Overnight rooms feature air conditioning systems that are independent of one another, so they do not recirculate air directly from one room to another within the HVAC system.

### Onsite Illness

- If you develop [COVID-19 symptoms](#) (e.g., fever, dry cough, breathing difficulties, body aches, etc.), please remain in place and immediately contact the front desk at the Venetian-Palazzo Resort, who will engage medical personnel that can/will provide care in your hotel room.
- The Venetian-Palazzo Resort has a team of certified Emergency Medical Technicians (EMTs) available 24 hours a day. The EMTs follow the direction of local health authorities and can respond to all medical events, including potential COVID-19 cases. The EMTs can also direct individuals toward appropriate medical care.

### Hotel Policies

- For more information about the policies and procedures of the Venetian-Palazzo Hotel, Resort & Casino, including the hotel's COVID-19 response plans and what to expect throughout your stay, please click [here](#).

**Please Note:** By joining us in Las Vegas, you recognize that attending Alloya's Symposium is purely voluntary and you have the alternate opportunity to participate virtually. You agree that Alloya is not responsible for any flight or reservation cancellations due to changes in your circumstances and you voluntarily agree to follow any and all health-related protocols imposed by Alloya, the State of Nevada, Clark County and/or the City of Las Vegas.
