FEBRUARY 2024 |

YOU, ME & P2P

Discover Alloya's New Peer-to-Peer Payment Solution

As the payments landscape has evolved in the last few years, Alloya recognized the need to find a peer-to-peer (P2P) payment solution for credit unions that stands out from the rest. One that would strengthen member relationships rather than outsource them. One that would mitigate fraud losses rather than encourage them. One that would allow consumers more convenience, more control, more security and, most importantly, more value. In partnership with Neural Payments, Alloya has done just that. This solution offers benefits for your credit union, your members and everyone they exchange payments with.

FOR CREDIT UNIONS

- + **A DIFFERENTIATOR** | Your credit union will stand out from the rest of the crowd.
- + **RELEVANT** | Your credit union will be more involved in your members' everyday payments.
- + **WELL PROTECTED** | Your credit union can prevent fraud before it happens.

FOR YOUR MEMBERS

- + **MAKE LIFE SIMPLER** | No apps needed. Payment-recipient compatibility is guaranteed.
- + **OFFER PEACE OF MIND** | Data will be more secure when payments go to the intended recipient.
- + **STRENGTHEN RELATIONSHIPS** | Owning your P2P solution makes your credit union more top of mind.

FOR MEMBERS' FRIENDS & FAMILY

- + **OFFER FREEDOM** | As payment recipients, they get to choose how they want to receive their funds.
